REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: Although the comparator 164 or Huang may be considered a remote code determiner, the applied prior art, including Huang and Wugoski, does not have a registration determiner, as claimed, responding to the remote control determiner for determining whether a second operation should be registered corresponding to the same remote code. Therefore the prior art cannot register each operation of a program corresponding to the same remote code at different times in the manner claimed and argued by applicant.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
